EDUCATION

SECURITY IN GCP SPECIALIZATION (PASS) | GOOGLE
DEC 2020 - MAR 2021

Explore and deploy components of a secure Google Cloud Platform solution to keep best practices in the organizations.

CYBERSECURITY FOR BUSINESS SPECIALIZATION (PASS) | UNIVERSITY OF COLORADO
AGO 2020 - NOV 2020

Practice computer security in the business world to understand how to protect computer systems and assets.

PROJECT MANAGEMENT SPECIALIZATION (PASS) | ITESM
MAR 2020 - JUL 2020

Apply methodologies to manage projects on time and budget based on the PMBOK Standards and Practices.

INFORMATION TECHNOLOGIES DEGREE (91/100) | ITESM
AUG 2013 - DEC 2017

Specialized in the design, implementation, and management of the IT infrastructure that all organizations require to be competitive.

PROFILE

I chose a career in technology because of the wonders you can do through code. After several years of working as a programmer, I've developed a passion for cybersecurity. I want to become an expert on this topic, so I can make a change in how people perceive information security.

CERTIFICATIONS

ISO 27001:2013 LEAD AUDITOR

Professional certification for auditors specializing in information security management systems.

SCRUM FOUNDATION

Certification of responsibility for promoting and supporting Scrum in the organization.

CYBER SECURITY FOUNDATION

This course is aimed at all the individuals who want to guide their future professional career in the area of Cyber Security.

EXPERIENCE

YAMILELIAS.ME

PROJECT MANAGER / INFORMATION SECURITY COORDINATOR | DELPUNTO (CHIH, MEXICO)
JUN 2018 - CURRENT

I lead the implementation and certification of ISO 27001:2013. Establishment of documented processes, a continuous improvement culture, and a new architecture for the application.

FOUNDER | JYBA (CHIH, MEXICO)
JUN 2018 - JAN 2020

Leader of a multidisciplinary team (both marketing and development) to get a new product to the market through a Minimum Viable Product. We needed to halt the project due to Mexican regulations and laws.

FRONT-END DEVELOPER | 4ALL (PORTO ALEGRE, BRASIL)
JAN 2018 - JUN 2018

My tasks were developed in a multiservice architecture, working on different modules within the company. I used my knowledge with React.js and UI/UX Design for development.

PRODUCT MANAGER | WORLD TRADE FIBERS (LIMA, PERU)
SEP 2016 - DEC 2017

Leader of an international team, with whom we reached five new countries with the e-commerce platform. Lead the implementation of cutting edge technology to optimize our site 10% and provide a first-class online store.

WORDPRESS DEVELOER | SOSTECH (CHIH, MEXICO)
NOV 2014 - JUL 2016

I was in charge of developing websites for different clients using WordPress. I worked directly with multiple stakeholders to gather the requirements and develop the product they wanted.
